Lite

Gastrend Lite

In response to the demands of the smaller welding supply and industrial gas distributors, **TRENDEX** is proud to offer **Gastrend Lite**, a complete and easy to use entry level accounting and cylinder control software package designed for one to four users. **Gastrend Lite** includes all the features required to automate your day to day business activities. Here is a list of the different modules:

- Accounts Receivable
- Accounts Payable
- General Ledger
- Financial Statements
- Order & Invoice Entry
- Hazardous Materials Charge
- Fuel Surcharge and Delivery Charge
- Cylinder Control
- Cylinder Rental Invoicing
- Yearly Lease Invoicing
- Inventory Control
- Purchasing
- Sales Analysis

Optional add-on modules are:

- Counter Sales Invoicing
- Bar Coding Module
- Laser Forms Module
- Quotation Module

Gastrend Lite, like all other software developed by **TRENDEX** is Trilingual (English, French & Spanish), multi-user, multi-company, multi-currency and multi-bank. Every **Gastrend Lite** solution also includes pre-delivery hardware testing, application and system software installation, implementation monitoring, documentation, training, warranty and after sales support.

Gastrend Lite was designed to minimize manual work whenever possible but still leave room for future expansion.

Gastrend Lite introduces you to our commitment to quality and service, which is unparalleled in the industry. Our experienced, professional support staff is committed to your success and satisfaction.

Today the quality of the company you deal with is every bit as important as the quality of the product you buy. With **TRENDEX** you are getting the best quality in every aspect.
